Dear Mr. Williams:

The Department has received the revised *Work Scope No. 3* [July 2020] for the above referenced site, as submitted by Inventum Engineering, PC as a continuation of the final *Interim Site Management Plan* [April 2020]. Based on our review the revised work plan addresses the previous comments and is acceptable to the Department.

Please ensure that a copy of the plan is distributed to both documentary repositories when they are reopened. It is the Department's understanding that implementation of the work plan will begin shortly.
